

**DEVELOPMENT TARGETS**

T H E R M O  
T E R R A  
Improving the climate

**Comfort Zone humidity balancing indoor fountain**  
Upgrade the atmosphere you live in.

**Air Quality**

Removes particles and VOC, for cleaner air, and for easier breathing.

**Humidity**

Our unique 2-in-1 design adds or removes moisture from the air to create the perfect atmosphere.

**Smart-Home enabled**

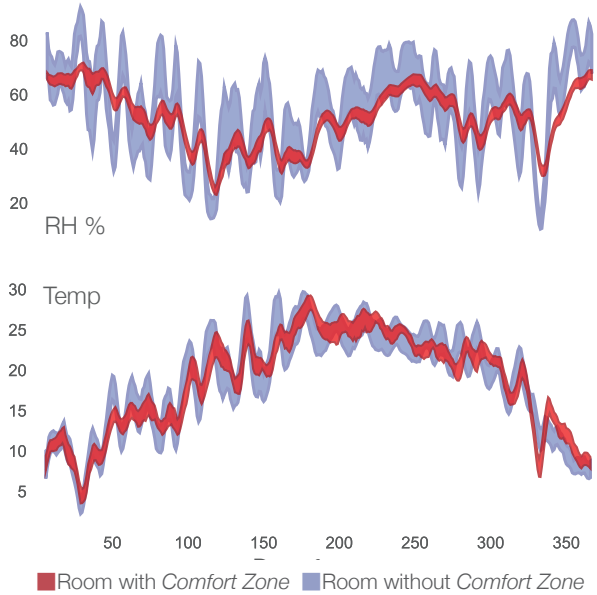

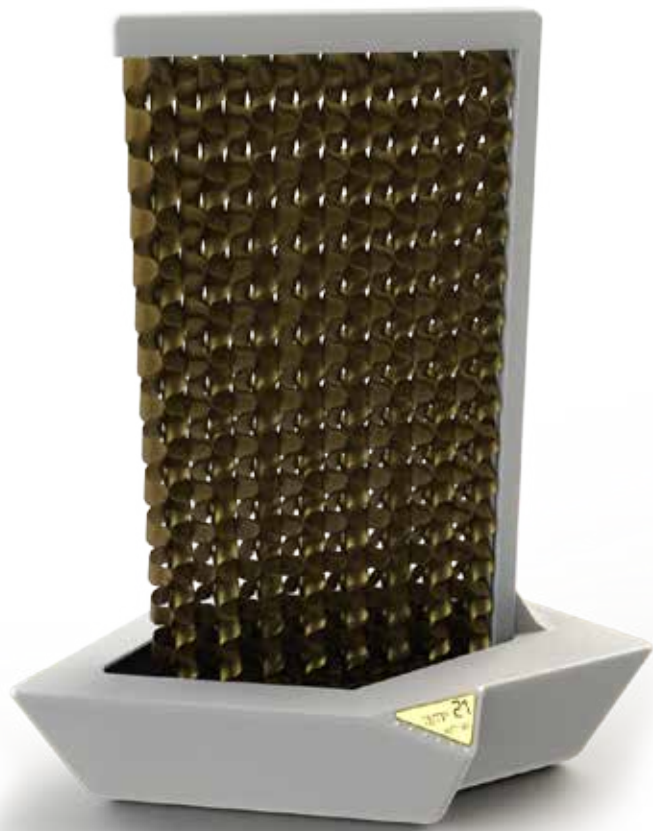

Weather forecasts, statistics and controls of a fully intergrated IOT device.

The *Comfort-Zone* fountain is specially designed for balancing humidity and purifying the air that you breathe. Balanced humidity is good for your skin, hair, and breathing. Smart features help you see the forecast, and control the activity of the fountain even while you're away.

**Recommended for:** Bedrooms, Kid's rooms, Air-conditioned offices, Health clinics and more.

**Key Features**

- Balances humidity.
- Improves air quality.
- No maintenance.
- Low energy consumption and costs.
- Soothing natural water sound.
- Smart-Home enabled.

Humidity exchange rate	1Kg H2O per day
Power consumption	20W
Dimensions	160X160X300mm
Weight	5kg total, 1kg active material
Compatibilty	Apple HomeKit, Google Home
Connectivity	WiFi 802.11n, Bluetooth
